

Miracle Spray

ESSENCE OF ENERGY

Concept

WHAT is Miracle Spray?

The concept of energy medicine has been with us for a long time;

Touch for Health, Reiki, Chinese Herbal Medicine, Reflexology and Acupuncture are examples of some therapies that have been employed for thousands of years to help relieve pain and discomfort by balancing energies within the body.

Miracle Spray is a new energy medicine that has a unique way of reducing pain: it works to help balance the micro-energy centers of your body so that it can do what it does best; HEAL itself.

Once energy is adjusted in a painful area of your body, often distress signals are terminated as inflammation, pain and discomfort is reduced.

Attributes

- Easy to use;
- Spray where needed whenever you need it;
- Soothes pain quickly, sometimes in seconds;
- Face safe, non-toxic, child and pet safe;

- Reduces stress and headaches;
- Works for all inflamed areas;
- Non-sticky, Non-greasy;
- Moisturizes dry skin;
- No animal testing;
- Hypoallergenic;
- Odor / scent free.

Use

HOW DO I USE Miracle Spray?

Miracle Spray is a new, all natural, highly energized herbal spray.

After spraying your painful areas with Miracle Spray, something unexpected and pleasant happens. All the energy that went into producing the inflammation, pain and accompanying energy-draining stress is now available to be used by your whole body to heal itself and to restore your youthful vitality.

Helps balance the body so that stress, pain and discomfort often disappear within seconds to minutes. If pain does not disappear in fifteen minutes, another application is necessary. Incredible for any burn recovery.

It is recommended that three or four bottles be purchased. One kept near the stove, one in the car, another by the bed and in a purse for easy access when needed.

Miracle Spray

ESSENCE OF ENERGY

Recommended for

Relieves everyday troubles such as:

- Insect bites (Incl. bees);
- Skin eruptions;

- Scab.;

All these conditions and discomforts exist because of an often chronic energy imbalance which usually manifests as pain and inflammation.

Let Miracle Spray be your "Medicine Cabinet in a Bottle" that works quickly to restore your body's energy balance in painful areas, allowing for reduced stress, discomfort and bringing fast relief.

How do we do it

The proprietary technologies that BREAKTHRU has developed and applies are the result of an understanding of natural processes. The goal is to improve every aspect of the agricultural productive chain; from soils, seeds, plants and the final consumption of products.

It is possible to apply each technology separately to achieve isolated improvements in productive factors or they can be implemented in a combined manner to obtain stratospheric yields, making possible the production of nutritionally stabilized, market-ready products which can be stored for long periods after being harvested.

About Us

Our goal is to promote and generate a paradigm shift in relation to industrial food production, from predominantly unsustainable methods towards those that are harmonic with nature, supplying huge efficiencies and productivity while protecting our most valuable assets;

Our health, our home and our planet.
